

Mohamed Anzize Sihamoudine

Full-Stack Software Engineer · Java / Spring Boot · React · Cloud & DevOps

📍 Dakar, Sénégal · 🌐 Open to Remote (Europe · Canada · Worldwide) · ✉️ sihamoudineanzize@gmail.com · ☎️ +221 78 380 0668

GitHub: github.com/Siam5818 · GitLab: gitlab.com/anzize5818 · UTC+0 (flexible schedule)

PROFILE

Full-Stack Software Engineer (M.Sc. in Software Engineering, ISI Dakar) with hands-on experience designing and shipping production-grade Java/Spring Boot APIs, React frontends, and CI/CD pipelines on GitLab. Currently building MNA'KILO, a parcel transport platform connecting Senegal, Comoros and France — handling auth, tracking, payments, and notifications from end to end. Fluent in French, conversational in English (B1–B2). Available full-time or alternance remote across Europe and North America (UTC+0, flexible).

TECHNICAL SKILLS

Languages	Java · JavaScript · Python · PHP · C# · SQL
Backend	Spring Boot · Flask (REST) · Laravel · Java JEE · JWT Auth
Frontend	React · Angular · Tailwind CSS · HTML5 / CSS3 · Blazor
Databases	PostgreSQL · MySQL · MongoDB · Oracle DB (DBA)
DevOps/Cloud	Docker · GitLab CI/CD · Jenkins · AWS S3 · Linux · SSH
IoT	ESP32 · DHT22 sensors · REST data transmission
Tools	Git · Postman · Maven · Figma · Scene Builder

PROJECTS

MNA'KILO — Java 17 · Spring Boot · PostgreSQL · Docker · GitLab CI/CD

- ▶ End-to-end parcel transport platform connecting Senegal, Comoros and France — full service layer (Auth, Tracking, Payments, Notifications, Reviews).
- ▶ Designed RESTful API with JWT authentication; implemented GitLab CI/CD pipeline with Docker build, push and deploy stages.
- ▶ Resolved complex Docker registry auth issues and Spring Data JPA entity mapping; tests written with JUnit 5 + Mockito.
- ▶ Repository: gitlab.com/anzize5818 (branch: develop)

Taverne — Flask · React · PostgreSQL · JWT

- ▶ REST API for product, order and event management; secured with JWT; React admin dashboard with real-time stats.

FlexiPay — JavaFX · PostgreSQL

- ▶ Desktop banking card management system with OTP validation, MVC architecture and full transaction history.

ISI Burger — Laravel · PHP · MySQL · Docker · Jenkins

- ▶ Restaurant order management with full DevOps workflow: GitHub → Docker → Jenkins CI pipeline.

IoT Health Monitor — ESP32 · Flask · Angular · DHT22 / BPM sensors

- ▶ Medical telemonitoring prototype: sensor data collection, REST API ingestion, live Angular dashboard.

School Admin Portal — Laravel · Angular

- ▶ Separated frontend/backend architecture for student, teacher and grade management with secure auth.

EXPERIENCE

IT Trainer · Amicale des Jeunes

2017 – 2021

- Designed and delivered computer science curriculum for 20+ learners; produced pedagogical materials from scratch.
- Built practical exercises focused on office tools, web basics and programming fundamentals.

Secretary General · [Amicale des Jeunes](#)

2020 – 2021

- Led administrative coordination and project management for community initiatives.
- Organized multi-stakeholder events; developed communication and leadership skills.

First Aid Responder · [Croissant Rouge Comorien](#)

2014 – present

- Participated in emergency medical interventions and community awareness campaigns.

EDUCATION

Master 1 — Software Engineering · [Institut Supérieur d'Informatique \(ISI\), Dakar](#)

2025 – present

Licence 3 — Software Engineering · [Institut Supérieur d'Informatique \(ISI\), Dakar](#)

2022 – 2025

CERTIFICATIONS

- Mobile Development — FORCE-N (2025)
- Digital Marketing — FORCE-N (2025)
- Energy Transition — INCO Academy (2025)

LANGUAGES

French — Native / C2

Arabic — Advanced / C1

English — Intermediate / B1–B2

Spanish — Beginner / A1
